Values Connect to USC’s Mission

Values are the foundation of our culture. They guide our thinking and give us the clear direction and guideposts around our actions. They help us prioritize those systems and process areas that need enhancement.

Most important, they are at the core of our Mission:
• Serve our students, patients, and communities.
• Development of students and society through enrichment of the human mind and spirit.
• Excellence in academics, teaching, research, artistic creation, athletics, professional practice, outstanding medical care, and public service.

Values Matter

Values matter. When we live in alignment with our values, everyone experiences the benefits.

When we embody our core values, we...

- Enhance institutional trust
- Support open communication and respect
- Reinforce ethical decision-making
- Foster positive and diverse cultural perspectives
- Anchor our behaviors in foundational guidelines that support our mission

Aligning across Culture Focus Areas

USC’s focus on culture is designed to support our mission by aligning on what we do and how we do it.

The Culture Journey prioritizes aligning values, behaviors, systems and processes across these focus areas:
Improving our Systems and Processes

Culture change cannot happen by only announcing our unifying values. During our 175+ culture sessions, we collected valuable feedback on recommended actions to improve our systems and processes.

- **Invest** in developing the professional skillset of our leaders, faculty, staff and students tied to ethical and values-based behaviors, mentorship and feedback
- **Reflect** USC values in the way we assess performance and in systems governing recognition, rewards and incentives
- **Provide** clear pathways for raising and addressing concerns without fear of retaliation
